

COMPANY PROFILE

Building the future, Today.

ABOUT US

Jsen Investors Limited aims to exceed the expectations of every client by offering outstanding service, flexibility, and greater value. We strive to provide high-end buildings, construction materials, transportation, project implementation, and improved progress.

We focus on building and construction, road construction, construction materials supply, Street Pole Solar Lighting installation, and transportation. With our experienced engineers and project managers, Jsen Investors Limited is dedicated to delivering top-quality services and goods to our clients that meet or exceed all specifications and quality control standards.

Our end results demonstrate our commitment to customer satisfaction. We are proud when our clients say, "I am very impressed, thank you."

COMPANY STRUCTURE

We have four departments headed by directors who make decisions and provide leadership in a hierarchical format. Some of the expatriates work closely with the directors to ensure that decisions are made promptly and in a way that does not delay project execution.

The company's founders are the directors, and they have shared their skills with the organization by providing on-the-job training to most team members.

Our Services

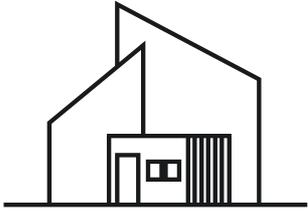

Architectural Design

We are digitally evolved and have exceptional artistic talent to help implement your architectural vision. We will design the architecture and develop the prototype into a product. We use the best practices in creating the architectural frameworks and methodologies to ensure optimal outcomes. We generate research and ideas that leave a lasting impact on people, businesses, and markets around the world. To do that, we ensure we have the best talent, modern tools, and infrastructure to match the global standards.

Commercial Construction

We are fully involved in developing commercial structures from the ground up. This also applies to renovations of existing old buildings, remodels, additions, and redesigning of existing structures. Amenities that we are mostly involved with are hotels, office buildings, medical facilities, retail shopping centres, manufacturing plants, schools, multi-housing properties and a variety of projects and sizes.

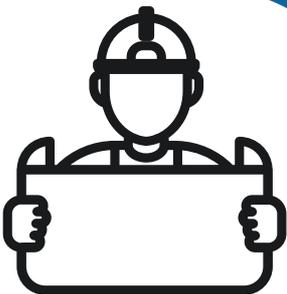

Residential Construction

At Jsen Investors Limited we use the latest models and drawings to come up with the best buildings and execute strong structures that are durable and up to standards. We use top-notch architecture to meet the specifications of every client.

Construction Consulting

We offer consulting services on a contractual basis on a variety of construction services including but not limited to road construction, building contractors, assorted building supplies contractors, civil works contractors, airport design and construction management, industrial planning and engineering, project management, and construction supervision.

Road Construction

With the extensive construction that is being performed in Africa and the development of the continents. Roads and highways are taking a higher percentage, We have extensive experience and have completed a lot of projects. We have invested in the best machinery for road works. These machines include excavation, drilling, carting, backfilling, levelling, and compaction.

Civil Works

Jsen Investors Limited is highly focused with a great and successfully proven track record. Keeping in mind the government regulations and compliance with them during and after the construction processes. Regardless of the project type and size. We ensure a successful build and handover. Our experts cut across all elements of construction including design, build or installation, and maintenance.

Contractor's Machinery and Equipment

Our company leases various construction machinery. We ensure the lease of machinery and equipment in good working condition with good maintenance and service records.

Transportation

We have extensive Transportation experience with a wide range of services that include material transport from sites to construction sites. We provide our clients with top-quality transportation services with vetted equipment that is of standard. We lease a range of trucks in Kenya. These include 28 Tons of trucks, 10 Tons of Trucks, Extractors, Dumping Trucks, and Backhoes.
